

# I Don't Want to Miss You

Charis McDaniel | Elisa Morales | Michael Morales | Jeremy Reed | Yolanda DeVillers

If we ask for the rain  
But You come as a fire  
Help us to surrender  
To Your desire

If we ask for the wind  
But You come as a wave  
Whatever it looks like  
We just want you

## **CHORUS**

Demolish my fantasies  
As I capture every thought  
I press into Your reality  
With everything I've got  
Whatever you want to do  
However You want to move  
Fix my eyes on Your truth  
I don't want to miss You

## **Bridge**

Let your wave wash away my lines in the sand  
Tear down the walls I've built with my own hands  
You meet the needs I don't even see  
You don't move according to me  
You don't move according to me
